(4) Health is Wealth

"Health is wealth" that statement seems to be true because health is everything. Health of a person is very important rather than wealth. Person suffering from diseases has no use of wealth. He can buy costly medicines but he can not buy the appetite. But person having health is ready to do any work. He can do anything. He can work and earn money. He is free to do any type of work. But person having no health means that is nothing. He cannot do anything. Wealth is useless for him. Wealth can do nothing for him. He can have costly doctors, medicines and every facility but can he can not have the strength to do work. He can not do any type of work. He is useless for the country, family and for the world. So at last we can say only that health is everything. It is the real wealth. Health is something that can not be bought but can be gained by proper exercise and care. Health is such a wealth that needs to be safe for future. It is apt saying that "Firstly person spoils his health for wealth and then he want to gain wealth by wealth"

Thus we can say that Health is everything money, honey, enjoyment, pleasure and the destination of life. Life is worthless without health. It is nothing if we do not have health. So it is true to say that "Health is Wealth"

DEFORESTATION IS CREATING IMBALANCE

The statement shining with black pen is true. What the Deforestation is? Deforestation is the reckless cutting of trees. Man has cut the trees for his benefit, comfort and pleasure. But now it is really creating several problems for our ecosystem. Man has now become worried about this problem. It is imbalance O_2 - CO_2 balance, it is imbalance the proper relation between wildlife and forests. Man has started cutting trees for many years. But now what is the result? We are facing a lot of trouble. It is really has created the imbalance of our ecosystem, wild animals has started coming to cities because they did not have their home now due to regular cutting of trees. Man has created several problems for himself. Now O_2 - CO_2 ^{balance} everything is in danger. Now several disasters occur due to deforestation. For example flood, earthquake, drought etc. Trees hold the fertile top layer of soil and prevents soil erosion. But due to cutting of trees it is now not possible. Flood in Bihar is fine example of this. Flood, drought has become very common now. Forests play a important role for the purpose of receiving rain fall. It is due to forest that man got rain. But now deforestation has created problem. Drought in Rajasthan, M.P. Gujarat and other parts of world is a common process. It has totally destroyed the balance of ecosystem.

Now, deforestation has taken a big part of the world due to which we are not getting rain.

(12) Prose Name - Happy Prince

No, the Swallow did not go to Egypt. He stayed with the Happy Prince even it was cold. Swallow was a bird of kindness, compassion and helpfulness. He helped the happy prince in minimising the people's trouble. At last he came to bid him bye. But the Happy Prince asked him to stay with him. Even it was severe cold she didn't go even then because the sadness of Happy Prince has also made him sad, and she was thinking to leave that place but Happy Princess said to him "Stay with me I am alone and if you go then who will minimise the problems of the people." Listening his words he was delighted and he said "I will stay with you".

(13) Prose Name - "The Bet"

Writer Name - Anton Chekhov Pavlovich

In the story "the Bet" Lawyer and banker had a bet on the subject that "imprisonment or capital punishment which one is better than other one". The Banker said I will give you one million roubles if you stay for five years in a alone place. The lawyer accepted the bet.

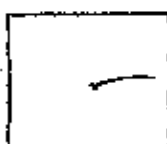

The lawyer was the victim of ego, greed and selfishness. He was not far-sighted. He cannot see the happenings in future. He was a ordinary man before he accepted the bet fifteen years before.

The lawyer spent fifteen years in a lonely cell. He read a large no. of books there including new testamen in prison. He learnt a large no. of things like freedom, life, health and so called the blessings of the earth are all worthless. He came to know that Everything is void, fleeting, Illusive, deceptive like a mirage. Life is not worth living. Nothing is certain. Only a thing remains certain. It is death. Death would wipe away everything.

He himself wrote "I despise your books. I despise the worldly blessings of earth. It is all worthless, Illusive, deceptive like a mirage."

Books gave him wisdom and changed his mind and soul. He came to know all the worldly desire people call - beauty, wealth they are all deceptive. To show his concept he even discarded two million roubles which he was

about to win. He even freed the banker away from the obligation by running away five minutes before the stipulated time.

He had been enlightened by the darkness of depth and loneliness. He came to know the difference between the lies and truth, ugliness and beauty. Lawyer was able to see that greed, selfishness and meanness which he has fifteen years ago.

In this way we can say that lawyer emerged as a better human being after the fifteen years by reading the books. He lost all his interest in money and worldly desires. In this way we can say that "books made him a refined man and gave the path to heaven".
