this success I worked very hard I used to study jealously. I completed all my syllabus and revised the whole for three time. I paid a lot of attention towards Sanskrit and English as they were somewhat trouble for me. But now I like them very much. I regularly went to the school as schools play a vital role in the education of the pupil. I made my tough timetable and followed that. I used to wake at 5 o'clock daily. At first all I prayed God and then I studied. All my teachers, parents and of course, God have helped me in doing my studies and the result is in front of me that is quite satisfying. I studied the languages very much as I am a student whom the people think to be a great and successful literate. At last I thanks to all my teachers, my ~~parents~~, my principal who helped me very much and also raised my moral, God for helping me to receive this huge success.

Q-6.

Today, the world is suffering severely by the burning problems. Among all of them deforestation is quite harmful for our ecosystem. Deforestation means to cut the green covering of a particular area for feeding of the cattle, or woods for timber and fuel uses. India is an agricultural dominated country and almost 75% of Indian population lives in villages. The people requires fodder for their cattle and they cut the greenery of the surface of earth. This causes deforestation. Due to deforestation our lands are gradually converting in the deserts and thus this affects the natural ecosystem. Due to deforestation all herbivorous animals cannot satisfy their need of food and thus it results in the lack of herbivorous. As there are lack of herbivorous the carnivorous, that eat herbivorous are also suffering tremendously for their food needs. Thus deforestation leads to imbalance in the natural ecosystem. Next to underwater level, the roots of the trees act as a good source to restore water to the water level and when they have been cut down, the water holding capacity

of the soil also decreases deforestation also leads towards floods. The roots of trees holds the soil firmly and thus doesn't cause soil erosion but when their lack occurs, then soil erosion causes severe effect to man and animal kingdom in the form of flood. Trees also acts as a good supplier of oxygen gas that the main things to be a life giving gas. Trees attracts the rain clouds and thus increase rain water which is a must for our life. But now, due to deforestation, there are scarcity of water. Thus our well greened forests are now converting towards deserts. So, deforestation should be checked. To check deforestation we should plant more trees and should not cut the planted ones. Citizen should pay attention towards this natural or just to say man reasoned calamity and just a disaster. So, all of us should stop deforestation.

my school very much. Schools are the most important essentials for the students that plays vital role in building characters of the students. My school is situated at the centre of the city. My school building is very nice and there are 52 rooms in this building. There is a garden in front of the school and a laboratory behind this. My school is thought to be the best one in the whole Kolkata. My school staff is very nice and all the teachers are well educated. Their number is 90. Our staff is always helpful for the poor and distressed public. I like Mr. Surendra Das, my English teacher, very much. My school has a play ground where the students play cricket, football, hockey and badminton. The sport teacher is very kind and always helps us in learning the rules of cricket and all other sports. The playground is surrounded by a lofty wall that saves any harms to happen. I am not very much interested in sports. But sometimes I go to the

Q-11 - When Gandhiji was in South Africa, he saw all the sorrows of the Indians that lived there. Indians were called there for labour and they had to work hard in order to earn their livelihood. They had to live in slums and their condition was very bad. Gandhiji felt pity on them. After completing his education he started searching for a place where he can start an educational farm. By chance he got the Tolstoy farm. There he started collecting

The bet was started on 14 November 1870 and would be continued till 14 November 1885. The lawyer studied well known soft love and character stories in his confinement. After some years he became zealously interested in reading and read about 600 volumes of various languages. He mastered over them and then he also started reading Shakespear and other writers. This reading gave him the Supreme knowledge and he wrote a letter to the banker that his books had given him Supreme knowledge and he was breaking the bet just before five hours of the ending of confinement to prove that he had no interest in worldly things. Thus the bet was broken just before 6 hours of its compulsory complement.
