"In The dim dawn of creation when men opened his eyes." He saw the blazing sun, the shining moon, the twinkling stars and the fast following rivers he cried in astonishment what are these that question has been fully answered by science. From dawn to dusk our daily depends on science. Science has greatly changed our life. We are living in the age of science and technology. Science has become a part and parcel of our lives. Science has won time, distance and space. Wireless, Electricity and atomic energy is the greatest discovery of science. Man's quality of curiosity, alertness and keen observation in natural happenings had given birth to science.

Electricity is the greatest discovery of science. It turns our machine - It pulls our phones, lights our houses. Radio and TV work only with the help of electricity. Electric heaters give us warm air in winter and A.C and Fans are gives cool breeze. In fact there are hardly anything which science does so for us.

Science is a good servant but bad master. The impossibilities of yesterday have become the possibilities of Today. We have our T.V sets, Scientific radio and music systems, Inventions which was entertain us. We can't go on the bicycle because we have our own car, motor bike.
