Population problem

Introduction - Population problem is the one of the major problem.

India is the grip of population explosion. We are ~~the~~ second largest country in this respect. We have more than one billion people in our country.

Reason - There are about 20 million birth every year in India. We can not be supplied with proper food, clothes, house, education, health service and drinking water etc. following reasons are responsible for this problem.

Medical science has advanced very much it is lowered the death rate of infants.

Illiterate people can not think disadvantage of science. They marry their children at the very young age who can not think a family planning.

Some other reasons of this problem are immigration from foreign countries.

and hot climate

Effect - Over population is cause to developing country like India.

The cross of the people are homeless and unemployed. It is very difficult fulfil the needs for these people.

Government can not provide each person home, education, health and other services. The progress is over populated country is very low people suffer from diseases due to poor living standards.

Solution to this problem - If we ~~can~~ take firm steps

are taken by the Government and people as well. This problem can ~~not~~

be solved the Government should ~~send~~ for family polices. people should taught the advantage of small family. people should stop marrying in ~~our~~ their children at very young age.
