प्रश्न क्र.

"Science give us power, but never give us wisdom"

Computer :- Computer is also a great inventions of science. They are helping us a lot in several fields. They make calculation at a great speed. They are also helping us in railway reservation and other matters.

B
S
E

Atomic Energy :- With the discovery of Atomic energy man has harnessed an inexhaustible source of energy. It can meet the demand of energy to the world for a long time.

"Science is a good servant but a bad master"

Disadvantage of science: Everything has two sides. Science too has a dark side. The invention and production of atom bombs and other dangerous weapons are the great threat to the existence of humanity in the world. They can destroy the world within seconds. Secondly pollution of atmosphere is the great threat to the world at large.

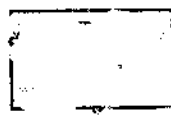

How to minimize the disadvantage: By creating a healthy atmosphere we can keep the threat humanity under control. we must brotherly affection of all man and women. All threats of war must be ended. Secondly by planting trees and in the other way we can keep our atmosphere clean and healthy.

"Science is give us a new life."
