Summary - Union is strength and disunion is weakness. A united family, a united community, a united society, a united nation is strong but those who are disunited or split up into fractions or groups are all weak. Napoleon's motto was, "Divide and conquer". He divided and overcome ~~them~~ one by one. So It is said that United we stand and divided we fall.

Answer of Q. No. 6

SCIENCE - A BOON OR A CURSE

- Index -
- (i) Introduction
 - (ii) Science - as a boon
 - (iii) As a curse
 - (iv) Conclusion

B
S
E

"Dawn to dusk,

Dusk to dawn.

"Our daily life,

Dependent on science."

— Nehruji

- (1) Introduction - In the dim dawn of creation when man opened his eyes he saw the shining sun, the shining moon, the twinkling stars, the fast flowing rivers and the gurgling cataract, he cried in the amazement that "What are these".

These all questions are totally answered by the science today.

ल 40

This is the age of science and there are many wonders of science. Science has made our life easier and more comfortable. It has totally changed our world. It has changed our life into a fairyland.

"In the sky above, in the ocean below and on the earth in between everywhere, triumphal chariots of science there are"

- Anon

"Our ^{daily} life today is governed, ^{conditioned} and directed by the offshoots of science."

- Nehruji

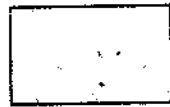

(2) Science as a boon :-

(i) Science in our daily life-

Scientists have invented several things big and small through observation of very simple events. Science has given us so many inventions that are being used in our daily life. Now we can cook food faster by the pressure

cooker. We can keep the food fresh in refrigerator, we can wash our clothes faster with the help of washing machine, and can get light from electric bulbs and tubelights.

(ii) Electricity - Electricity is the greatest invention of science.

B
S
E
It serves us in hundreds and thousands of ways. It runs our mills, factories and trains. It runs all the machines that are being used in our home or in another place. Modern life is impossible without electricity.

(iii) Means of transportation and

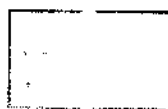

communication :- Buses, cars, trains, ships and aeroplanes are the greatest contribution of science. Man can reach any part of the world within hours, man has even reached to the other planet with the help of science.

are a great threat to the existance to the humanity of the world. They can destory the world within seconds. Secondly the pollution of the atmosphere is also a great to the world at large.

(i) How to minimise the curse :- By creating a healthy atmosphere we can keep the threat to humanity under control. We must have brotherly affection to all men and women. All threats of war must be ended. And Secondly by planting trees and in other ways we can keep our atmosphere clean and healthy.
