Indore, (M.P.)

17th Feb, 2022

Dear friend,

I am fine here and hope you are also fine there. Yesterday, I received your letter and came to know that you are preparing for a competitive exam. I am very glad to know this.

But I would suggest you to study English and general knowledge hard for your exam. These two subjects are very important for the competitive exam.

I am sure you will follow my advice and clear this exam.

Give my regards to uncle and aunty.

Yours truly

Shweta

THE IMPORTANCE OF GAMES AND SPORTS

Games and sports are very important both physically and mentally. Games help in building up physical strength. It also helps in attaining mental stability. It helps in reviving our energy and spirit.

But now-a-days, children do not play games like cricket, football, tennis, badminton etc and keep themselves engaged in mobile phones. Therefore, children are lacking physical strength. Their growth is affected badly.

Parents and teachers should teach children the importance of games and sports in our life. Schools should organize sports day events in order to encourage children.

S
E

The 'mighty dead' lived a great life of brave and noble acts. They were never selfish and always thought about the well-being of others. Their tales can be heard even now and they inspire us to behave in the same manner and always do welfare to others.

Even today people praise them and follow them. Therefore, the 'grandeur' is associated with the mighty dead.

प्रश्न क्र.

Answer - 15

Antarctica is the place to go to and understand the earth's present, past and future. Within its layers of ice there are half a million years old carbon records. It helps us to learn evolution and extinction, carbon and ozone. Here we can understand the cordilleran folds and how geological phenomena help in separating land masses.

M
P
B
S
E

The melting and falling ice sheets help us to understand how careless activities are adversely affecting the environment. The effects of global warming and depletion of ozone layer can be understood. It tells how earlier the earth was a single landmass called Gondwana and then further divided into today's globe.

Therefore, Antarctica is the place to go and understand the earth's present, past and future.
