It is very sad to say that India has a large number of child labourers workers. Child labour has become a major problem in the success of India. Child labour should be eliminated so that our country can progress and become a prosperous country in this modern world. There are thousands of children engaged in the bangle industry of Firozabad and other major industries of the country. It has become very important that Government should take necessary steps to solve this problem. Immediate actions of Government can save the lives of large number of children. Government has put ban on it but the practising of child labour still exist in our society. Collective efforts of the government and citizens can be helpful to eliminate child labour.

During the interview with Umberto Eco, the interviewer Mukund Padmanabhan reiterates David Lodge's astonishment on Eco's large amount of work and he managed to write them all. Eco replies that the life of every person has empty spaces periods with no important job. He has done most of his writing in these free intervals. Whenever he has a few moments to spare in between two different tasks, instead of wasting them, he uses the time to write. In this way, Umberto Eco was able to manage time to write so much.

Antarctica is the only 'pristine' place in the world that have never sustained a human population. "The world's geological history is trapped in Antarctica." Antarctica gives us an idea how the earth would have been like million years ago and how it got divided into several earth masses. The melting and colliding ice masses gives us an insight into how our future is going to be, if we continue with interference in the working of the nature. We can study "climatic changes" caused by global warming and depletion in Ozone layer here.

प्रश्न क्र.

Moreover, Antarctica holds into the depths its ice half-million-year old carbon records which are helpful in understanding the past, present and future of the earth. Therefore, Antarctica is the place which reveals our past, shows us the present and visualize our future.

Subject - Complaint about a TV set.

Respected Sir,

I would like to bring in your kind notice that the TV set I bought last month is not working properly. I think it has some defects which I am unable to understand. Yesterday, I turned it on but it got switched off automatically. The pictures on the screen are also not clear.

Therefore, I request you to send an engineer who can check the defects of this TV. You can also have a replacement if it has some major defects.

Answer of Q. NO. 5 (OR)

"The Importance of Games and Sports."

"All work and no play make Jack a dull boy," is an old saying. This tells that games and sports are more important than any work. They develop the mind and physique of a person. They are also very useful for students. They inculcate discipline among students. They teach us that "win or loss is less important than participation." When we feel bored from our daily works, we play a lot of games. They relax our mind and refresh our body. Games and sports are good means of ^{entertainment} communication. They not only teach us sportsmanship but also improve our sporting skills. The young generation is finding their career in different sports.
