My dear friend Reema,

I hope you are happy and healthy there.

It is very good news that you intend to appear competitive exams. I wish you the best of luck.

You know that competitive exams are very challenging and demand a hard labour. I advise you to take active interest in study of English and general knowledge. English has become a essential part of all good jobs. Good general knowledge is also important.

• Thanking you.

• Yours truly

Shweta.

The Importance of Games and Sports.

M
P
B
S
E

Games and sports are very important for us. Games and sports makes us healthy and fit. Games develop our mind. It gives us joy. Games and sports removed our monotony. It also makes us fresh and happy. A sound body possesses a sound mind. It gives joy and optimism to human body. The daily routine of our playing games and sports while playing game take a rest everything makes us fresh and happy. Games and sports develop our physique and mind. Games and sports are very important for a student.

When we play game we forget all sorrow because it gives us a lot of joy.

kind to him.

Answer NO :- 16

The colour of sour cream is off white. This expression has been used to suggest the decaying aspect.

M P B S E The deterioration in the colour of classroom walls symbolizes the pathetic condition of these slum children. The children of the slum school living in poverty. The atmosphere inside the classroom is one of morbidity and inactivity. The children spend their lives in the barrenness where there is no hope for the future. whereas the pictures that decorate the walls suggest beauty, and progress and prosperity but the children of slum school are lack prosperity and beauty.

प्रश्न क्र.

Answer NO! - 15.

Antarctica is only pristine place in world which has never sustained a human population. It gives us idea on how the earth would have been like million year ago. It also gives us an idea how the earth would have got divided into various earth masses. It shows our present situation reveals our past and up to usualize our future. Antarctica holds a half a million year old carbon track record in its layer of ice. It gives us understanding of our evolution, ozone and carbon. Antarctica has a simple ecosystem system with lack of biodiversity.
