Dear friend,

I am,

I hope you are in good health. I am also fine here. I received your letter yesterday in which you told me that you are preparing for competitive exams. I want to advise you that you should give more importance to English, Mathematics, General knowledge and reasoning questions to gain good marks in examination.

You should prepare notes in your own understandings with different reference books. You will definitely be qualified with good marks.

Why is Antarctica the place to go to understand the earth's present, past and future?

As we studied, Antarctica is the most unique planet on the world, it holds its ice - covers million of years old carbon records. This is only place where on the world, which has no supported human population and therefore remains relatively 'Pristine' (in its original condition). It has a greater variety of flora and fauna. This is the only place from where we know that how the world would have been millions of years ago. By studying the climate of Antarctica, some questions arise that due to depletion of ozone layer will the west Antarctica ice melt entirely? Will the Gulf stream ocean current be disrupted? Will it be the end of the earth? That's why Antarctica is the place to go to understand Earth's present, past and future.
